7.01.04 REGIONAL COMMERCIAL DISTRICT:

The Regional Commercial District (RCD) is established to accommodate those retail businesses and services which are intended to serve a retail market area that includes Genoa Township, the surrounding communities and bypass traffic. The large size and variety of permitted commercial uses typically generates significant volumes of vehicular and pedestrian traffic. Regional Commercial Uses require a large area devoted to off street parking and loading, and generally tend to create problems of congestion, noise and impairment of aesthetic values. These uses need to be located in areas that have the transportation, utility and public service infrastructure to serve these intensive uses. By the nature of these uses serving the region beyond Genoa Township, convenient access to regional transportation is necessary. This district is specifically designated for the regional commercial center designated in the Master Plan along Grand River Avenue west of Latson Road, which will be served by the new full service interchange with I-96 at Latson Road.
